Journal of Neuroimmunology

Author Index (Vol. 62)

Aarli, J.A., see Mygland, Å. (62) 79
Adler, M.W., see Belkowski, S.M. (62) 113

Bebo Jr., B.F. and Linthicum, D.S.
Expression of mRNA for 55-kDa and 75-kDa tumor necrosis factor (TNF) receptors in mouse cerebrovascular endothelium: effects of interleukin-1β, interferon-γ and TNF-α on cultured cells (62) 161
Belkowski, S.M., Zhu, J., Liu-Chen, L.-Y., Eisenstein, T.K., Adler, M.W. and Rogers, T.J.
Sequence of κ-opioid receptor cDNA in the R1.1 thymoma cell line (62) 113
Bing, G., see Das, K.P. (62) 9
Bost, K.L.
Inducible preprotachykinin mRNA expression in mucosal lymphoid organs following oral immunization with *Salmonella* (62) 59
Brambilla, E., see Martino, G. (62) 169

Casadevall, A., see Lee, S.C. (62) 43
Christensen, J.P., see Marker, O. (62) 35
Clementi, E., see Martino, G. (62) 169
Comi, G., see Martino, G. (62) 169
Cowden, W.B., see Hansen, L.A. (62) 69
Cucumel, K. and Cupo, A.
Anti-idiotypic antibodies: a useful alternative for studying the biochemical expression of μ/δ opioid binding sites in mammalian brain (62) 183
Cupo, A., see Cucumel, K. (62) 183

Dal Canto, M.C., see Liuzzi, G.M. (62) 91
Das, K.P., McMillian, M.K., Bing, G. and Hong, J.-S.
Modulatory effects of [Met^5]-enkephalin on interleukin-1β secretion from microglia in mixed brain cell cultures (62) 9
Dau, P.C.
Increased antibody production in peripheral blood mononuclear cells after plasma exchange therapy in multiple sclerosis (62) 197
De Jong, J.G.N., see Lamers, K.J.B. (62) 19
De la Fuente, M., see Delgado, M. (62) 137
Delgado, M., De la Fuente, M., Martínez, C. and Gomariz, R.P.
Pituitary adenylate cyclase-activating polypeptides (PACAP27 and PACAP38) inhibit the mobility of murine thymocytes and splenic lymphocytes: comparison with VIP and implication of cAMP (62) 137
Dickson, D.W., see Lee, S.C. (62) 43
Dougherty, J.P., see Gordon, E.J. (62) 153
Drummond, C.W.E., see Esiri, M.M. (62) 201

Eisenstein, T.K., see Belkowski, S.M. (62) 113
Erkut, Z.A., Hofman, M.A., Ravid, R. and Swaab, D.F.
Increased activity of hypothalamic corticotropin-releasing hormone neurons in multiple sclerosis (62) 27
Esiri, M.M., Drummond, C.W.E. and Morris, C.S.
Macrophages and microglia in HSV-1 infected mouse brain (62) 201
Esumi, H., see Okuda, Y. (62) 103

Fujimura, H., see Okuda, Y. (62) 103

Gilhus, N.E., see Mygland, Å. (62) 79
Gomariz, R.P., see Delgado, M. (62) 137
Gordon, E.J., Myers, K.J., Dougherty, J.P., Rosen, H. and Ron, Y.
Both anti-CD11a (LFA-1) and anti-CD11b (MAC-1) therapy delay the onset and diminish the severity of experimental autoimmune encephalomyelitis (62) 153
Grimaldi, L.M.E., see Martino, G. (62) 169

Hansen, L.A., Willenborg, D.O. and Cowden, W.B.
Suppression of hyperacute and passively transferred experimental autoimmune encephalomyelitis by the anti-oxidant, butylated hydroxyanisole (62) 69
Hartrich, L.A., see Munschauer, F.E. (62) 177
Hofman, M.A., see Erkut, Z.A. (62) 27
Hong, J.-S., see Das, K.P. (62) 9
Hughes, R.A.C., see Rees, J.H. (62) 53

Jacobs, L., see Munschauer, F.E. (62) 177
Jessop, D.S., Murphy, D. and Larsen, P.J.
Thymic vasopressin (AVP) transgene expression in rats: a model for the study of thymic AVP hyper-expression in T cell differentiation (62) 85
Jongen, P.J.H., see Lamers, K.J.B. (62) 19

Kock-Jansen, M.J.H., see Lamers, K.J.B. (62) 19
Kondeatis, E., see Rees, J.H. (62) 53
Kress, Y., see Lee, S.C. (62) 43
Kuwajima, G., see Mygland, Å. (62) 79

Lamers, K.J.B., De Jong, J.G.N., Jongen, P.J.H., Kock-Jansen, M.J.H., Teunesen, M.A. and Prudon-Rosmulder, E.M.W.
Cerebrospinal fluid free kappa light chains versus IgG findings in neurological disorders: qualitative and quantitative measurements (62) 19
Larsen, P.J., see Jessop, D.S. (62) 85
Lee, S.C., Kress, Y., Dickson, D.W. and Casadevall, A.
Human microglia mediate anti-*Cryptococcus neoformans* activity in the presence of specific antibody (62) 43
Linthicum, D.S., see Bebo Jr., B.F. (62) 161
Liu-Chen, L.-Y., see Belkowski, S.M. (62) 113
Liuzzi, G.M., Riccio, P. and Dal Canto, M.C.
Release of myelin basic protein-degrading proteolytic activity from microglia and macrophages after infection with Theiler's murine encephalomyelitis virus: comparison between susceptible and resistant mice (62) 91

Marker, O., Scheynius, A., Christensen, J.P. and Thomsen, A.R.
Virus-activated T cells regulate expression of adhesion molecules on endothelial cells in sites of infection (62) 35
Martínez, C., see Delgado, M. (62) 137
Martino, G., Moiola, L., Brambilla, E., Clementi, E., Comi, G. and Grimaldi, L.M.E.
Interferon-γ induces T lymphocyte proliferation in multiple sclerosis via a Ca^{2+}-dependent mechanism (62) 169

McMillian, M.K., see Das, K.P. (62) 9
Mikoshiba, K., see Mygland, Å. (62) 79
Moiola, L., see Martino, G. (62) 169
Morris, C.S., see Esiri, M.M. (62) 201
Moscarello, M.A., see Zhou, S.-R. (62) 147
Munschauer, F.E., Hartrich, L.A., Stewart, C.C. and Jacobs, L.
Circulating natural killer cells but not cytotoxic T lymphocytes are reduced in patients with active relapsing multiple sclerosis and little clinical disability as compared to controls (62) 177
Murphy, D., see Jessop, D.S. (62) 85
Myers, K.J., see Gordon, E.J. (62) 153
Mygland, Å., Kuwajima, G., Mikoshiba, K., Tysnes, O.-B., Aarli, J.A. and Gilhus, N.E.
Thymomas express epitopes shared by the ryanodine receptor (62) 79

Nakatsuji, Y., see Okuda, Y. (62) 103

Ogura, T., see Okuda, Y. (62) 103
Okuda, Y., Nakatsuji, Y., Fujimura, H., Esumi, H., Ogura, T., Yanagihara, T. and Sakoda, S.
Expression of the inducible isoform of nitric oxide synthase in the central nervous system of mice correlates with the severity of actively induced experimental allergic encephalomyelitis (62) 103
Olive, C.
$\gamma\delta$ T cell receptor variable region usage during the development of experimental allergic encephalomyelitis (62) 1

Petrescu, A.D., see Sapatino, B.V. (62) 127
Piedrahita, J.A., see Sapatino, B.V. (62) 127

Journal of Neuroimmunology 62 (1995) 211–214

Journal of Neuroimmunology

Subject Index (Vol. 62)

Acylation
Arginine; Citrulline; Experimental allergic encephalomyelitis; Fatty acids; Multiple sclerosis; Myelin basic protein (Zhou, S.-R. (62) 147)

AIDS
Cryptococcus neoformans; Capsular polysaccharide; Monoclonal antibody; Microglia; Phagocytosis (Lee, S.C. (62) 43)

Anti-oxidant therapy
Butylated hydroxyanisole; Free radical scavenging; Hyperacute experimental autoimmune encephalomyelitis; Lipid peroxidation; Passive transfer (Hansen, L.A. (62) 69)

Arginine
Acylation; Citrulline; Experimental allergic encephalomyelitis; Fatty acids; Multiple sclerosis; Myelin basic protein (Zhou, S.-R. (62) 147)

Arginine vasopressin
Transgenic rat; Thymus (Jessop, D.S. (62) 85)

Brain
T cell receptor repertoire; γδ T cells; Variable region usage; T cell receptor transcripts; Murine experimental allergic encephalomyelitis (Olive, C. (62) 1)

Polyclonal anti-idiotypic antiserum; Opioid receptors; NG 108-15 hybrid cells (Cucumel, K. (62) 183)

Herpes simplex virus-1; Encephalitis; Macrophages; Microglia (Esiri, M.M. (62) 201)

Butylated hydroxyanisole
Anti-oxidant therapy; Free radical scavenging; Hyperacute experimental autoimmune encephalomyelitis; Lipid peroxidation; Passive transfer (Hansen, L.A. (62) 69)

Ca^{2+} channels
Interferon-γ; Multiple sclerosis; T lymphocyte activation (Martino, G. (62) 169)

Campylobacter jejuni
HLA; Guillain-Barré syndrome (Rees, J.H. (62) 53)

Capsular polysaccharide
Cryptococcus neoformans; Monoclonal antibody; Microglia; Phagocytosis; AIDS (Lee, S.C. (62) 43)

CD11a
Experimental autoimmune encephalomyelitis; CD11b (Gordon, E.J. (62) 153)

CD11b
Experimental autoimmune encephalomyelitis; CD11a (Gordon, E.J. (62) 153)

$CD8^+$ T cells
Virus-induced meningitis; Cell adhesion molecules (Marker, O. (62) 35)

Cell adhesion molecules
Virus-induced meningitis; $CD8^+$ T cells (Marker, O. (62) 35)

Cerebrospinal fluid
Free kappa light chain; IgG index; Free kappa index (Lamers, K.J.B. (62) 19)

Cerebrovascular
Endothelial cells; Receptor; Tumor necrosis factor; Mouse (Bebo Jr., B.F. (62) 161)

Cerebrovascular endothelial cells
Theiler's virus; Major histocompatibility complex class I; Tumor necrosis factor-α; Interferon-γ (Welsh, C.J.R. (62) 119)

Theiler's virus; Persistent infection; MHC Class I; Flow cytometry (Sapatino, B.V. (62) 127)

Citrulline
Acylation; Arginine; Experimental allergic encephalomyelitis; Fatty acids; Multiple sclerosis; Myelin basic protein (Zhou, S.-R. (62) 147)

Corticotropin-releasing hormone
Multiple sclerosis; Hypothalamo-pituitary-adrenal axis; Paraventricular nucleus; Vasopressin; Human hypothalamus (Erkut, Z.A. (62) 27)

Cryptococcus neoformans
Capsular polysaccharide; Monoclonal antibody; Microglia; Phagocytosis; AIDS (Lee, S.C. (62) 43)

Cyclic AMP
Mobility; Pituitary adenylate cyclase-activating poplypeptides; Vasoactive intestinal peptide (Delgado, M. (62) 137)

Cytokine
Nitric oxide; Multiple sclerosis; Experimental allergic encephalomyelitis (Okuda, Y. (62) 103)

Demyelination
Theiler's virus; Proteases; Microglia/macrophages; Oligodendrocytes (Liuzzi, G.M. (62) 91)

Encephalitis
Herpes simplex virus-1; Brain; Macrophages; Microglia (Esiri, M.M. (62) 201)

Endothelial cells
Receptor; Tumor necrosis factor; Mouse; Cerebrovascular (Bebo Jr., B.F. (62) 161)

Experimental allergic encephalomyelitis
Nitric oxide; Cytokine; Multiple sclerosis (Okuda, Y. (62) 103)

Acylation; Arginine; Citrulline; Fatty acids; Multiple sclerosis; Myelin basic protein (Zhou, S.-R. (62) 147)

Experimental autoimmune encephalomyelitis
CD11a; CD11b (Gordon, E.J. (62) 153)

Fatty acids
Acylation; Arginine; Citrulline; Experimental allergic encephalomyelitis; Multiple sclerosis; Myelin basic protein (Zhou, S.-R. (62) 147)

Flow cytometry
Cerebrovascular endothelial cells; Theiler's virus; Persistent infection; MHC Class I (Sapatino, B.V. (62) 127)

Free kappa index
Cerebrospinal fluid; Free kappa light chain; IgG index (Lamers, K.J.B. (62) 19)

Free kappa light chain
Cerebrospinal fluid; IgG index; Free kappa index (Lamers, K.J.B. (62) 19)

Free radical scavenging
Anti-oxidant therapy; Butylated hydroxyanisole; Hyperacute experimental autoimmune encephalomyelitis; Lipid peroxidation; Passive transfer (Hansen, L.A. (62) 69)

Guillain-Barré syndrome
HLA; *Campylobacter jejuni* (Rees, J.H. (62) 53)

Plasma exchange; Immunoglobulin G; Immunoglobulin M; Multiple sclerosis (Dau, P.C. (62) 197)

Herpes simplex virus-1
Brain; Encephalitis; Macrophages; Microglia (Esiri, M.M. (62) 201)

HLA
Guillain-Barré syndrome; *Campylobacter jejuni* (Rees, J.H. (62) 53)

Human hypothalamus
Multiple sclerosis; Hypothalamo-pituitary-adrenal axis; Paraventricular nucleus; Corticotropin-releasing hormone; Vasopressin (Erkut, Z.A. (62) 27)

Hyperacute experimental autoimmune encephalomyelitis
Anti-oxidant therapy; Butylated hydroxyanisole; Free radical scavenging; Lipid peroxidation; Passive transfer (Hansen, L.A. (62) 69)

Hypothalamo-pituitary-adrenal axis
Multiple sclerosis; Paraventricular nucleus; Corticotropin-releasing hormone; Vasopressin; Human hypothalamus (Erkut, Z.A. (62) 27)

IgG index
Cerebrospinal fluid; Free kappa light chain; Free kappa index (Lamers, K.J.B. (62) 19)

Immunoglobulin G
Plasma exchange; Immunoglobulin M; Multiple sclerosis; Guillain-Barré syndrome (Dau, P.C. (62) 197)

Immunoglobulin M
Plasma exchange; Immunoglobulin G; Multiple sclerosis; Guillain-Barré syndrome (Dau, P.C. (62) 197)

Interferon-γ
Cerebrovascular endothelial cells; Theiler's virus; Major histocompatibility complex class I; Tumor necrosis factor-α (Welsh, C.J.R. (62) 119)

Multiple sclerosis; T lymphocyte activation; Ca^{2+} channels (Martino, G. (62) 169)

Interleukin-1β
Lipopolysaccharide; Microglia; Mixed brain cell culture; Mouse; Opioid peptide (Das, K.P. (62) 9)

Lipid peroxidation
Anti-oxidant therapy; Butylated hydroxyanisole; Free radical scavenging; Hyperacute experimental autoimmune encephalomyelitis; Passive transfer (Hansen, L.A. (62) 69)

Lipopolysaccharide
Interleukin-1β; Microglia; Mixed brain cell culture; Mouse; Opioid peptide (Das, K.P. (62) 9)

Macrophages
Preprotachykinin; *Salmonella*; Reverse transcribed-polymerase chain reaction (Bost, K.L. (62) 59)

Herpes simplex virus-1; Brain; Encephalitis; Microglia (Esiri, M.M. (62) 201)

Major histocompatibility complex class I
Cerebrovascular endothelial cells; Theiler's virus; Tumor necrosis factor-α; Interferon-γ (Welsh, C.J.R. (62) 119)

Cerebrovascular endothelial cells; Theiler's virus; Persistent infection; Flow cytometry (Sapatino, B.V. (62) 127)

Microglia
Interleukin-1β; Lipopolysaccharide; Mixed brain cell culture; Mouse; Opioid peptide (Das, K.P. (62) 9)

Cryptococcus neoformans; Capsular polysaccharide; Monoclonal antibody; Phagocytosis; AIDS (Lee, S.C. (62) 43)

Herpes simplex virus-1; Brain; Encephalitis; Macrophages (Esiri, M.M. (62) 201)

Microglia / macrophages
Theiler's virus; Demyelination; Proteases; Oligodendrocytes (Liuzzi, G.M. (62) 91)

Mixed brain cell culture
Interleukin-1β; Lipopolysaccharide; Microglia; Mouse; Opioid peptide (Das, K.P. (62) 9)

Mobility
Cyclic AMP; Pituitary adenylate cyclase-activating poplypeptides; Vasoactive intestinal peptide (Delgado, M. (62) 137)

Monoclonal antibody
Cryptococcus neoformans; Capsular polysaccharide; Microglia; Phagocytosis; AIDS (Lee, S.C. (62) 43)

Mouse
Interleukin-1β; Lipopolysaccharide; Microglia; Mixed brain cell culture; Opioid peptide (Das, K.P. (62) 9)

Endothelial cells; Receptor; Tumor necrosis factor; Cerebrovascular (Bebo Jr., B.F. (62) 161)

Multiple sclerosis
Hypothalamo-pituitary-adrenal axis; Paraventricular nucleus; Corticotropin-releasing hormone; Vasopressin; Human hypothalamus (Erkut, Z.A. (62) 27)

Nitric oxide; Cytokine; Experimental allergic encephalomyelitis (Okuda, Y. (62) 103)

Acylation; Arginine; Citrulline; Experimental allergic encephalomyelitis; Fatty acids; Myelin basic protein (Zhou, S.-R. (62) 147)

Interferon-γ; T lymphocyte activation; Ca^{2+} channels (Martino, G. (62) 169)

Natural killer cells; Triple antibody flow cytometry (Munschauer, F.E. (62) 177)

Plasma exchange; Immunoglobulin G; Immunoglobulin M; Guillain-Barré syndrome (Dau, P.C. (62) 197)

Murine experimental allergic encephalomyelitis
T cell receptor repertoire; $\gamma\delta$ T cells; Variable region usage; T cell receptor transcripts; Brain (Olive, C. (62) 1)

Myasthenia gravis
Thymoma; Ryanodine receptor (Mygland, Å. (62) 79)

Myelin basic protein
Acylation; Arginine; Citrulline; Experimental allergic encephalomyelitis; Fatty acids; Multiple sclerosis (Zhou, S.-R. (62) 147)

Natural killer cells
Multiple sclerosis; Triple antibody flow cytometry (Munschauer, F.E. (62) 177)

NG 108-15 hybrid cells
Polyclonal anti-idiotypic antiserum; Opioid receptors; Brain (Cucumel, K. (62) 183)

Nitric oxide
Cytokine; Multiple sclerosis; Experimental allergic encephalomyelitis (Okuda, Y. (62) 103)

Oligodendrocytes
Theiler's virus; Demyelination; Proteases; Microglia/macrophages (Liuzzi, G.M. (62) 91)

Opioid peptide
Interleukin-1β; Lipopolysaccharide; Microglia; Mixed brain cell culture; Mouse (Das, K.P. (62) 9)

κ-Opioid receptor
R1.1 thymoma; Reverse transcriptase-polymerase chain reaction (Belkowski, S.M. (62) 113)

Opioid receptors
Polyclonal anti-idiotypic antiserum; Brain; NG 108-15 hybrid cells (Cucumel, K. (62) 183)

Paraventricular nucleus
Multiple sclerosis; Hypothalamo-pituitary-adrenal axis; Corticotropin-releasing hormone; Vasopressin; Human hypothalamus (Erkut, Z.A. (62) 27)

Passive transfer
Anti-oxidant therapy; Butylated hydroxyanisole; Free radical scavenging; Hyperacute experimental autoimmune encephalomyelitis; Lipid peroxidation (Hansen, L.A. (62) 69)

Persistent infection
Cerebrovascular endothelial cells; Theiler's virus; MHC Class I; Flow cytometry (Sapatino, B.V. (62) 127)

Phagocytosis
Cryptococcus neoformans; Capsular polysaccharide; Monoclonal antibody; Microglia; AIDS (Lee, S.C. (62) 43)

Pituitary adenylate cyclase-activating poplypeptides
Mobility; Cyclic AMP; Vasoactive intestinal peptide (Delgado, M. (62) 137)

Plasma exchange
Immunoglobulin G; Immunoglobulin M; Multiple sclerosis; Guillain-Barré syndrome (Dau, P.C. (62) 197)

Polyclonal anti-idiotypic antiserum
Opioid receptors; Brain; NG 108-15 hybrid cells (Cucumel, K. (62) 183)

Preprotachykinin
Salmonella; Reverse transcribed-polymerase chain reaction; Macrophages (Bost, K.L. (62) 59)

Proteases
Theiler's virus; Demyelination; Microglia/macrophages; Oligodendrocytes (Liuzzi, G.M. (62) 91)

Receptor
Endothelial cells; Tumor necrosis factor; Mouse; Cerebrovascular (Bebo Jr., B.F. (62) 161)

Reverse transcribed-polymerase chain reaction
Preprotachykinin; *Salmonella*; Macrophages (Bost, K.L. (62) 59)

Reverse transcriptase-polymerase chain reaction
κ-Opioid receptor; R1.1 thymoma (Belkowski, S.M. (62) 113)

R1.1 thymoma
κ-Opioid receptor; Reverse transcriptase-polymerase chain reaction (Belkowski, S.M. (62) 113)

Ryanodine receptor
Myasthenia gravis; Thymoma (Mygland, Å. (62) 79)

Salmonella
Preprotachykinin; Reverse transcribed-polymerase chain reaction; Macrophages (Bost, K.L. (62) 59)

T cell receptor repertoire
$\gamma\delta$ T cells; Variable region usage; T cell receptor transcripts; Murine experimental allergic encephalomyelitis; Brain (Olive, C. (62) 1)

T cell receptor transcripts
T cell receptor repertoire; $\gamma\delta$ T cells; Variable region usage; Murine experimental allergic encephalomyelitis; Brain (Olive, C. (62) 1)

$\gamma\delta$ T cells
T cell receptor repertoire; Variable region usage; T cell receptor transcripts; Murine experimental allergic encephalomyelitis; Brain (Olive, C. (62) 1)

Theiler's virus
Demyelination; Proteases; Microglia/macrophages; Oligodendrocytes (Liuzzi, G.M. (62) 91)

Cerebrovascular endothelial cells; Major histocompatibility complex class I; Tumor necrosis factor-α; Interferon-γ (Welsh, C.J.R. (62) 119)

Cerebrovascular endothelial cells; Persistent infection; MHC Class I; Flow cytometry (Sapatino, B.V. (62) 127)

Thymoma
Myasthenia gravis; Ryanodine receptor (Mygland, Å. (62) 79)

Thymus
Arginine vasopressin; Transgenic rat (Jessop, D.S. (62) 85)

T lymphocyte activation
Interferon-γ; Multiple sclerosis; Ca^{2+} channels (Martino, G. (62) 169)

Transgenic rat
Arginine vasopressin; Thymus (Jessop, D.S. (62) 85)

Triple antibody flow cytometry
Natural killer cells; Multiple sclerosis (Munschauer, F.E. (62) 177)

Tumor necrosis factor
Endothelial cells; Receptor; Mouse; Cerebrovascular (Bebo Jr., B.F. (62) 161)

Tumor necrosis factor-α
Cerebrovascular endothelial cells; Theiler's virus; Major histocompatibility complex class I; Interferon-γ (Welsh, C.J.R. (62) 119)

Variable region usage
T cell receptor repertoire; $\gamma\delta$ T cells; T cell receptor transcripts; Murine experimental allergic encephalomyelitis; Brain (Olive, C. (62) 1)

Vasoactive intestinal peptide
Mobility; Cyclic AMP; Pituitary adenylate cyclase-activating poplypeptides (Delgado, M. (62) 137)

Vasopressin
Multiple sclerosis; Hypothalamo-pituitary-adrenal axis; Paraventricular nucleus; Corticotropin-releasing hormone; Human hypothalamus (Erkut, Z.A. (62) 27)

Virus-induced meningitis
Cell adhesion molecules; $CD8^+$ T cells (Marker, O. (62) 35)
